Gross Rent Weekly Charge	£453.40	This is the total weekly charge for your home (rent plus service charge).

The Eligible charges stated on this breakdown are those for which housing benefit may be payable subject to you being able to claim this benefit.

Notes

1. All service charges are payable on a weekly basis. Where customers are eligible for full Housing Benefit all the above charges will be eligible for and met through Housing Benefit.
2. The rent and service charge are reviewed annually by the end of February. Customers get 28 days' notice before the new charges come into force each year on the first Monday in April.
3. Customers receive a quarterly rent statement showing what they are being charged and whether the payments are up to date. A statement can be requested at any time.
4. All services are monitored and reviewed regularly. For any changes to service charges or the introduction of new services a consultation with customers is required. We also consult with our Customer Board. We welcome feedback from customers on all aspects of our services and this is always considered when we undertake service reviews and set charges.
5. If any service covered by the service charge cannot be provided, appropriate alternative arrangements will be put in place.
6. One Housing Group does not receive any incentive or commission from third party suppliers relating to any of the services paid for by customers through the service charge.
7. Part of the rent payment contributes towards a sinking fund for maintenance and capital works. One Housing Group maintains an Asset Management Plan to ensure we are continually planning and budgeting for major repairs and cyclical redecorations at our schemes.
8. Customers are not liable for any additional charges in relation to major capital works unless they are the direct result of intentional damages caused by customers.
9. Service charges are 'variable', meaning that they are based on the actual expenditure in the previous year and the planned expenditures in the year for which they apply. Customers are not required to pay any of the charge before moving into a property.
10. Any surpluses arising from these charges are used by One Housing Group to contribute to its general reserves. Any deficit arising from service charge-related expenditure will be managed by One Housing Group and no additional charges will be levied on customers.
11. Neither the Service Charge nor the sinking fund for maintenance and capital works are held 'in trust' but each is managed and accounted for separately.
